The truck will travel West on Main then return traveling East.

If teams are planting at *more than one stop* (barrel location), their team name will appear in red (stop 2) and black.

If a team's additional barrels are across the street (south side of Main Street), PLEASE do not offload those at the first stop on the North Side of Main when the truck is traveling WEST.... We will have a Posse Escort and do not want our members crossing Main Street carrying boxes. The truck will be coming up the south side, traveling EAST very quickly since there are only 13 stops.

PLEASE follow this plan. We will then know that all boxes have been delivered to their correct location.
